

Project Design Phase-II
Data Flow Diagram & User Stories

Date	03 October 2026
Team ID	SWTID-2026-8426
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Data Flow Diagrams:

DATA FLOW DIAGRAM — LEVEL 0

Import Data using Transform Maps (Spreadsheet)

Main flow: Spreadsheet → Import Set → Transform Map → Employee Test → Admin/HR

Supporting flow: Field Mapping → Validation → Import Results → Reports & Dashboard

The Level-0 DFD follows the source process: spreadsheet data is loaded into Employee Import, transformed through Sample Spreadsheet Import, written to Employee Test, validated through Transform History, and presented through reports/dashboard.

User Stories

User stories are derived only from the documented workflow and phases in the supplied project PDF.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Administrator	Spreadsheet Preparation	USN-1	As an administrator, I can prepare the sample spreadsheet and download it as Sample Spreadsheet.xlsx.	Spreadsheet contains the employee data used by the import workflow.	High	Sprint-1
Administrator	Employee Test Table	USN-2	As an administrator, I can create Employee Test with the required fields.	Employee ID, Employee Name, Email, Department and Location are available.	High	Sprint-1
Administrator	Import Set	USN-3	As an administrator, I can create Employee Import and load spreadsheet data.	Import Set staging succeeds.	High	Sprint-1
Administrator	Transform Map	USN-4	As an administrator, I can create Sample Spreadsheet Import and map source to target fields.	Source and target fields are mapped and saved.	High	Sprint-1
Administrator	Transform	USN-5	As an administrator, I can run Transform and create/update Employee Test records.	Transform completes successfully.	High	Sprint-2
Administrator	Coalesce	USN-6	As an administrator, I can enable Coalesce to avoid duplicate employee records.	Repeated identical data is ignored rather than inserted.	High	Sprint-2
Administrator	Validation	USN-7	As an administrator, I can inspect Transform History.	Inserted, Updated and Ignored outcomes are visible.	High	Sprint-2
Administrator / HR	Reports	USN-8	As an administrator or HR user, I can create Department, Location and Employee List reports.	Three documented reports run successfully.	Medium	Sprint-3
Administrator / HR	Dashboard	USN-9	As an administrator or HR user, I can add the three reports to Employee Analytics Dashboards.	Reports are added to the created dashboard.	Medium	Sprint-3
