

Project Design Phase
Proposed Solution Template

Date	03 October 2026
Team ID	SWTID-2026-8426
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1	Problem Statement	Bulk employee data received in Excel must be migrated into ServiceNow efficiently and accurately. The workflow must also handle repeated imports without creating duplicate employee records.
2	Proposed Solution	Use Import Sets and Transform Maps: load spreadsheet data into Employee Import, map it to Employee Test, execute the Transform, validate results, enable Coalesce, and create reports/dashboard views.
3	Novelty / Uniqueness	The project combines staging, field mapping, Transform execution, Coalesce-based duplicate prevention, Transform History validation, reports and a consolidated dashboard.
4	Social / Operational Impact	The source states that the solution improves accuracy, efficiency and data integrity during employee onboarding and update processes.
5	Business Model	Not specified in the supplied project document.
6	Scalability	The supplied document demonstrates repeated imports, duplicate handling, three reports and a dashboard. It does not specify additional scalability mechanisms.
